### BATTLE SYSTEM

Soul on Top is a 5 vs. 5 b-boying battle. Each crew has to be made of five b-boys or b-girls. Up to 48 crews can participate. The battle is held in K.O. mode. There will be no battles with three crews and no show battles. After each battle the victorious crew will advance to the next round. The winner gets CHF 1000 (one thousand Swiss Francs).

The battle consists of six rounds: the round of forty-eight, the round of twentyfour, the round of twelve, the quarter-finals, the semi-finals and the final. After the round of twelve the judges will in two separate battles choose two losers who will - in addition to the three winners of the round of twelve - advance to the quarter finals. In the round of fortyeight, the round of twentyfour and the round of twelve three battles will be held at the same time in three circles. The battles in the quarter-finals, semi-finals and the final will be held one after the other in the main circle. The round of fortyeight, the round of twentyfour and the round of twelve will be judged by three judges and dure eight minutes. The quarter-finals, semi-finals and the final will be judged by six judges and dure ten minutes.

The crews to battle each other in the round of fortyeight will be drawn by chance in a two-step procedure. For the first step of the procedure every participating crew will choose the eight crews they think will be the best of all the participating crews at Soul on Top. The eight crews that are chosen the most often will then be assigned by draw to an assigned space of the round of fortyeight. In the second step of the procedure all the other crews will be assigned by draw to the remaining spaces in the battles of the round of fortyeight. The participating crews will choose the eight crews to be assigned by draw in the first step of the procedure when they check-in at the mainevent of Soul on Top. The crews won't be able to choose their own crew.

If less than 48 but more than 32 crews show up the judges will choose lucky losers. In case of an uneven number of crews one crew will advance to the round of twentyfour without having to battle. If less than 32 crews show up the judges will pick the best losing crews of the round of thirtytwo so that there will be a guaranteed 16 crews in the round of sixteen.
